

I used watercolor crayons for the background, after stamping the manatee so I knew where I wanted to put him. Watercolor crayons and watercolor pencil were used for the greenery too. The three fish were colored pencils. The manatee was made with water color crayons; the black ink that was used was StazOn Jet Black. Glossy accent was used on the greenery, fish, and bubbles. The gold hook was colored with gold smooch accent ink. Lastly, I stamped the verbiage.
