Water color pencils

Aqua painter

Several different sizes of heart punches and heart dies

Ribbon

Heart Brad

Paper piercer

Pearl

Dimensionals

Heart Sticker sheet with variety of sticker hearts and borders

Adhesive tape

Glue Dots

Instructions:

Cut your card stock and designer paper. Adhere the designer paper and white card stock to your card base. Use heart dies and or heart punches for your hearts. Choose your heart sizes and how many you want on your card. I used a paper piercer to pierce holes in the chocolate heart and around the white heart with the stamped image. I colored the image with water color pencils and an aqua painter to smooth and blend out the pencil lines. I then added a border sticker (white scalloped line with pink dots). I used dimensionals under all of the hearts, overlapped the hearts and added the heart brad before I adhered them on the card. I used one heart sticker. I added a pearl to one of the hearts. Added a ribbon with a glue dot and adhered a heart on top of the ribbon with a glue dot .
