Ranger Archival ink- Jet black for images

Colorbox chalk ink-Chestnut Roan

Pens

Zig clean color real brush water color markers

Zig Millenium micron 01-jet black

Wink of Stella

Paper cardstock by California Papergoods

Misc

ATG tape gun, decorative scissors, paper cutter, P-Touch labelmaker

I started by cutting and trimming paper to sizes needed. The Rat Pack and the back hamster had already been stamped in Chestnut Roan so I trimmed them out and colored them with the Zig pens. Bigfoot, Krampus, glowbugs and the shark were stamped with the jet black Ranger ink then colored with Zig pens and trimmed out. I wanted the horse and deer to be the main event so to speak so I stamped them next to each other and used the micron pen to draw in additional mountain/water/grass scenery and colored them. I then adhered the images to the beige or starry background with the tape gun. Added the labels. Then adhered those panels to the black paper with the tape gun.
